	water absorption	EN ISO 10545-3	< 0.5 %
	modulus of rupture	EN ISO 10545-4	> 35 N/mm ²
	surface quality	EN ISO 10545-2	> 95 %
	breaking strength	EN ISO 10545-4	> 1100 N
	scratch resistance	EN 101	5
	chemical resistance	EN ISO 10545-13	GLA GHB GA
	stain resistance	EN ISO 10545-14	5/-/5/5

CERTIFICATIONS

LEED (Leadership in Energy and Environmental Design) is an internationally recognized green building certification system, providing third-party verification that a building or community was designed and built using strategies aimed at improving performance across all the metrics that matter most: energy savings, water efficiency, CO2 emissions reduction, improved indoor environmental quality, and stewardship of resources and sensitivity to their impacts.

BREEAM is an assessment undertaken by independent licensed assessors using scientifically-based sustainability metrics and indices which cover a range of environmental issues. Its categories evaluate energy and water use, health and wellbeing, pollution, transport, materials, waste, ecology and management processes.

ISO 14001:2015 specifies the requirements for an environmental management system that an organization can use to enhance its environmental performance. ISO 14001:2015 is intended for use by an organization seeking to manage its environmental responsibilities in a systematic manner that contributes to the environmental pillar of sustainability.
