PRODUCT SPECIFICATIONS	format	size	finish	thickness	colour
	tile	nominal size 600x1200mm I actual size 604x 1208mm	brushed	8mm	all colours
MATERIAL					glazed porcelain
VARIATION					V3
TILE EDGE					rectified

*Installation notes: Due to the 3D profile, it is suggested to cut these tiles with a wet saw

Colours shown in images may differ due to variations in photographic conditions and screen displays. Samples provided may not accurately reflect the exact shade or batch supplied, as variation is an inherent property of tiles and stone. Listed sizes and thicknesses are nominal and may vary slightly from actual working dimensions.

technical data

properties	test method	prescribed value	value
WATER ABSORPTION	ISO 10545-3	≤0.5%	≤0.06%
BENDING STRENGTH	ISO 10545-4	≥12 MPa	≥33.5 MPa
BREAKING STRENGTH	ISO 10545-4	≥350 N	1780 N
ABRASION RESISTANCE	ISO 10545-7	Max. 175 mm^3 PEI 1-5	Class 3
RESISTANCE TO CHEMICALS	ISO 10545-13	Household chemicals & swimming pool salts	GA
		Low concentration of acids & alkalis	GLA
RESISTANCE TO STAINING	ISO 10545-14	Minimum class 3	Class 5

Variation is an inherent property of tiles and stone. Sizes are nominal and may include a joint.

The ISO 9001 certification is a voluntary standard that enables a company to monitor the quality of all its production processes, from the design and development of products to their manufacturing, with the aim of ensuring the quality of the products and services it offers. The company strives for continuous improvement and increased customer satisfaction.

Eco-Management and Audit Scheme (EMAS) Registration. The EMAS system is a voluntary awareness for those companies committed to evaluating and improving their environmental efficiency through a more responsible choice of buying and management, a more careful use of air, water, territory, raw materials and energy.

LEED (Leadership in Energy and Environmental Design) is an internationally recognized green building certification system, providing third-party verification that a building or community was designed and built using strategies aimed at improving performance across all the metrics that matter most: energy savings, water efficiency, CO2 emissions reduction, improved indoor environmental quality, and stewardship of resources and sensitivity to their impacts.

AN ENVIRONMENTAL PRODUCT DECLARATION (EPD) is a globally recognised certification that outlines the environmental impact of a product across its entire life cycle. It supports sustainable decision-making and green procurement by assessing factors such as material sourcing, emissions, installation, use, and end-of-life disposal.

The information provided in this Technical Data Sheet is given in good faith and reflects current knowledge and experience. It is intended as a general guide and may be updated without notice. Users are responsible for ensuring the product's suitability for their specific application and for compliance with all relevant local building codes, Australian Standards, and regulations. This information is offered for guidance purposes only and does not constitute any representation or warranty, express or implied.
