Grande Max

|	
PRODUCT TYPE:	6mm and 12mm porcelain slabs
MARBLE LIGHT:	Golden White, Calacatta Extra, Statuario Altissimo and Capraia
MARBLE DARK:	Elegant Black, Imperiale, St Laurent and Grigio Carnico
TERRAZZO:	Terrazzo Grey
STONE:	Brera Grey, Ceppo Di Gre, Basaltina, Bluestone Gris Du Gent, Granito Black and Limestone
CONCRETE:	Concrete Smoke and Concrete White Solid
SOLID:	White and Solid Black
METAL:	Metal Iron Dark and Metal Iron Light
SIZES:	1200x1200x6mm, 1200x2400x6mm, 1200x2780x6mm, 1600x3200x6mm and 1620x3240x12mm Rectified
FINISHES/USAGE:	Satin, Polish, Matt, Extra Polish and Extra Satin/ Wall and Floor
AESTHETIC QUALITIES:	Stone and Marble look porcelain slabs
ORIGIN:	Italy
TECHNICAL DATA:	More technical data on the last page
CERTIFICATIONS:	

Made in Italy, GRANDE MAX features the classical elegance of numerous types of marble, stone, metal and concrete translated into stoneware with satin and polished surfaces. GRANDE MAX is available in 6mm and 12mm thickness. The 6mm is ideal for both horizontal and vertical flat surfaces including facades for both indoor and outdoor and the 12mm ideal for bench tops, cladding and furniture.

CERTIFICATIONS

The GREENGUARD Environmental Institute is an industry-independent organisation with a mission to improve indoor air quality and reduce people's exposure to chemicals and other pollutants. As an ISO-IEC Guide 65:1996 accredited, third-party organization, the GREENGUARD Environmental Institute certifies products and materials for low chemical emissions and provides a resource for choosing healthier products and materials for indoor environments. Certified products must meet chemical emissions standards based on established criteria from key public health agencies.

Living Building Challenge (LBC) Red List Free is a status indicating that a product contains none of the harmful chemicals listed on the Red List. It is one of three declaration possibilities—Red List Approved and Declared are the other two—on the International Living Future Institute's (ILFI) Declare Label. For a manufacturer to claim a product is Red List Free, it must disclose 100 percent of ingredients and be found to obtain no Red List chemicals at levels at or above 100ppm or 0.01 percent. Products with the Red List Free label are in compliance with the LBC's goals of ingredient transparency and industry-wide elimination of all Red List chemicals.

Italian GREEN BUILDING COUNCIL, the association of top players working to transform the building market towards sustainability and to build liveable communities. GBC Italian members promote environmental, economic and social responsibility, innovating buildings in terms of engineering, design, manufacturing and use.

A European Union ecological quality mark that guarantees lower energy consumption in production processes, lower atmospheric and wastewater emissions, use of substances that are not dangerous for humans and the environment, use of quarries with correct environmental management, more effective consumer information and improved waste management.

LEED (Leadership in Energy and Environmental Design) is an internationally recognized green building certification system, providing third-party verification that a building or community was designed and built using strategies aimed at improving performance across all the metrics that matter most: energy savings, water efficiency, CO2 emissions reduction, improved indoor environmental quality, and stewardship of resources and sensitivity to their impacts.
