TECHINCAL DATA

Technical Characteristics	Test Method	Result
 Water Absorption	ISO 10545-3	0.02-0.1%
 Compressive Strength	ISO 10545-4	120-140Mpa
 Abrasion Resistance	ISO 10545-6	25-35mm
 Linear thermal expansion	ISO 10545-8	6-14 x 10 (-6/°C)
 Flexural Strength	ISO 10545-4	26-35Mpa
 Apparent Density	ISO 10545-2	2500-2600 kg/m3

* Please Note

Natural Stone aggregates bound by either epoxy or polyester resin with added UV absorbers and stabilizers.

A typical resin based material will consist of 93% stone aggregates by weight and 7% resin (66% quartz and 34% resin by volume).

Wet fabrication is required.

- Auto ignition: Combustibility extremely difficult
- Fire Spreading Rating: 5
- Smoke Development Rating: 25
- Flash Point: 490°C
- Flammable Limits in Air: N/A
- Extinguishing Media: Water, Dry Chemical, CO2, Foam
